Authorized as Second Class Mail, Post Office Department, Ottawa

FEBRUARY 12th, 1953

ACME, ALBERTA, THURSDAY, VOLUME 32: No. 2

\$2.00 a Year; 5c a Copy

The Oyster Supper and Draw for the Washing Machine will be held at the Curling Rink on Feb. 13th.

Hon. Gordon Taylor will address the people of Carbon at a public meeting on Sat., Feb. 14. Listen to all the candidates before casting your vote.

OPEN HOUSE

On Tuesday, February 17th, have your afternoon coffee at the Rosebud Seed Cleaning Plant and avail yourself of an opportunity to see the new Plant in operation.

Although the 1953 seed has been flowing through the mill since the 28th of January and several thousand bushels have gone back to the farms the official opening will take place next Tuesday at 2 o'clock. This consists of, inspection of plant, talks by government officials, and lunch for all.

30XXX30

A PERMANENT BUSINESS, part time or full, to limited number of farm men. No investment. Take orders for America's largest nationally sold LIQUID FERTILIZER. Steady \$50 and up weekly income. Write "Na-Churs" Plant Food, Box 84, London, Canada.

Alex R. McTavish, R.O., Graduate Optometrist will visit Hotel Acme on Mon. morning, Feb. 16 and Drug Store, Carbon on Mon. afternoon, Feb. 16th. Complete dependable eyesight service.

Mrs. Doug Prowse, Editor
George Wheeler, Publisher

A number of cases of scarlet fever have been reported in the district.

The Anglican W.A. are sponsoring a Whist Party in the church basement on Feb. 11th.

A report of wheat being stolen in the Carbon district has been affirmed by the R.C.M.P. and the culprits apprehended.

The Senior Ladies' Aid of the Carbon United Church are holding a Valentine Tea and Novelty Table at the Scout Hall on Sat., Feb. 14th.

The nomination meeting of the Municipal District of Kneehill will be held on Feb. 16th at the Municipal Office for the purpose of receiving nominations for the office of councillor.

The Junior Ladies' Aid held their regular meeting at the home of Mrs. D. A. Prowse. It was decided to work with Rosebud on a program to be presented in Carbon, Rosebud and Rockyford. The date for its presentation will be announced later.

Carbon Old Timers

A meeting of the Carbon Old Timers Executive Committee was held on Thursday evening, Feb. 5th. It was decided to hold a dance on March 11th, open to the general public, with a program of new and old time dances. The following committees were appointed:

Door—S. N. Wright and S. F. Torrance.
Midnight Supper—F. J. Besant.

Dance Programme—Jack Gordon, V. Luft and L. E. Halstead.
Posters and Orchestra—W. A. Braisher.

The following notice of motion was given, which will be voted on at a general meeting in the near future.

"That membership in the Carbon Old Timers' Association be those who have resided twenty-five years in Alberta, five years of which must be in the Carbon District, and their wives and husbands, sons and daughters, if twenty years old or older."

It was also decided to continue with the Old Timers Square Dance Club at the new Legion Hall every alternate Saturday starting Feb. 14th.

The Swalwell Beef Club met on Saturday, Feb. 7th. There will be a combined meeting of the Swalwell Beef Club, Acme Dairy Club, Avondale Beef Club, and Swalwell Garden Club on Feb. 14 in Swalwell Community Centre, when Mr. Stan Pettem, district agriculturist will be present.

Mr. and Mrs. Dan Saylor celebrated their 25th wedding anniversary Jan. 25th. It was somewhat of a surprise to Mr. Saylor. He could barely realize that it was 25 years of married life, and said, "My, here we are married 25 years and I don't know my wife yet. A nice evening was spent and a dandy lunch was served. They were presented a nice gift by Mr. and Mrs. Marvin Dick.

SPORTS

The mixed bonspiel is in full swing at the Carbon Curling Rink.

The F. Poxon rink won second prize in the second event in the Drumheller Bonspiel. The prizes were electric toasters.

The Carbon high school hockey team played in the Trochu arena on Monday evening at 8 o'clock. The final score was Carbon 6, Trochu 12.

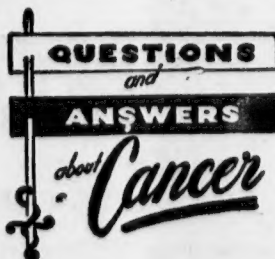

The following rinks entered the Acme High School Bonspiel and made an excellent showing: Skip Jim Foster, Myrna Schell, Alvin Harsch, Lynn McCracken. Skip Roger Tetz, Shirley McMann, Jim Cooper, Leona Remper.

Skip Cynthia Barnes, Jo Ann Ohlhauser, Darleen Hecktor, Audrey Martin.

Skip Vernon Bettcher, Frances Bushby, Adine Harsch, Ellen Harsch.

Skip Don Kary, Florence McMann, Walter Mucha, Dennis Marshman.

Jim Foster's rink took first prize in the first event. Roger Tetz rink took second prize in the first event. Cynthia Barnes rink took first prize in the second event. The prizes consisted of hams, can openers and trophy plaques.

QUESTION: Does use of aluminum cooking vessels cause cancer?
ANSWER:

No. This rumor was traced to its source and found to be false. Research has proven that even taking small amounts of aluminum in the diet does not affect the incidence of cancer.

GOVERNMENT BUSINESS

HOSPITALIZATION IN ALBERTA

In co-operation with municipalities, low-cost hospitalization is available to almost 75 percent of the people in this province.

This is accomplished by:

- The Alberta Government refunding 50 percent of the ward rate over and above \$1.00 a day to any municipality which agrees to hospitalize its ratepayers and their dependents at a direct cost to the patient of not more than \$1.00 a day for standard ward care.
- Refunding the same amount to any municipality which sells contracts to its non-ratepayers and agrees to provide standard ward rate hospitalization at \$1.00 a day to these non-ratepayers and their dependents.

In addition, your Government pays 70 cents a day to all approved hospitals for every day a resident of the Province is in hospital, and assumes responsibility for the maternity hospitalization grant and the special provincial payment for old age pensioners.

MUNICIPAL HOSPITAL DISTRICTS:

Any area can be organized as a Municipal Hospital District by application from municipal councils or by petition signed by at least 25 percent of the resident ratepayers. The hospital plan for the district may include the building of a hospital or arrangements for using the services of an established hospital. The Municipal Hospital District owns and controls its own hospital while administration and operation are in the hands of its own elected board. There are 61 municipal hospital districts in the province with a total capacity of nearly 2,000 beds, giving Alberta the highest hospital bed capacity rate in Canada.

PROVINCE OF ALBERTA

THRILLS of the ROARIN' GAME

The Ancient Roarin' Game Has Its 10 Commandments

1. Thou shalt have no other game before me, for I am the roaring game which was in the beginning (even in the stone age) is now and ever shall be.
2. Come not upon the ice with the old house broom. Thou canst not

Mrs. Frank Schuster Puts on Blue Bonnet — Makes a Hit!

Everyone enjoys it when Mrs. Frank Schuster puts on delicious BLUE BONNET Margarine! Like the wife of the famous Canadian comedian, you will love the delicate, sunny-sweet taste BLUE BONNET adds to any food! You'll appreciate its nourishment, too. No other spread is richer in year-round Vitamin A! And you'll welcome its wonderful economy. Use BLUE BONNET for all cooking and recipes as well as on bread and toast, cut dollars from your food bills! BLUE BONNET Margarine is sold in the regular economy package with color wafer. Also in the famous YELLOW QUIK bag for fast, easy color.

quicken the pace of a dying rock with last year's broom.

3. Thou shalt learn thy turns, both the out and the in, for the skip will not hold him guiltless that throweth the wrong turn.

4. Play not a running shot when thou art asked for a guard, lest thou raise thine own shot, so sending thy skip in the air; such play getteth his goat, queereth his game, causeth him to swallow his cud, and to revile thee openly.

5. Thou shalt hearken diligently to the defeated skip when his voice is lifted up in lamentation against the punk ice, and thou shalt not turn thy face from him when he blameth his third man. Even so shalt thou secure a listener against the day of thine own defeat.

6. Thou shalt not strew straws from thy broom in the path of thine own or thine adversary's rock.

7. Thou shalt have no discourse with thine adversary while his foot is in the hack and his hand is on the rock, but if thou wilt thou canst pray for him.

8. Thou shalt not push or kick a rock into the house from behind stealthily, for the ire of the opposite skip will be kindled against thee. He will rise up in righteous indignation

WHEN PAIN STRIKES

At the first twinge of rheumatic pain—take Templeton's T-R-C's. Over a million T-R-C's used every month, for speedy relief from pain caused by rheumatism, arthritis, neuralgia, lumbago and sciatica. Why suffer needlessly? Keep T-R-C's on hand, and use them promptly. Only 65c, \$1.35 at drug counters. T-842

Funny and Otherwise

Work hard, save your money, and who knows some day you may be able to pay your taxes in one instalment.

"Your mother wouldn't like it if she saw you in that skimpy bathing suit."

"I'm afraid you're right. It's her suit."

Cashdown: "I thought you said you would never marry."

Harduppe: "I did; but I spent so much on Mabel I had to marry her for my money."

"Daddy, remember you promised me five dollars if I passed?"

"Er-ah-to be sure—did I?"

"Yes, and you'll be glad to know I saved you all that expense."

In a town on the Pacific coast an earthquake shock was felt, and when the municipal building rocked, the City Fathers left without bothering about formalities. The clerk, a man of rules and regulations was hard put to it to give

and thrust thee hence from the sight of curlers, and the days of thy curling will be ended, for this is an unpardonable sin.

9. Thou shalt not covet thy opposition's rock nor his lead player; neither shalt thou flinch from him his third man who is his mainstay and a wall of defence in the day of battle.

10. Thou shalt honor thy opposing skip by substituting only players of the same ability as those absent, causing him to praise thy name for thy fairness and sportsmanship, for many there are who destroy their good names by such conduct, causing their opposing team much bitterness of spirit. — From The International Curling Magazine. 3020

his minutes the proper official tone. Finally, he evolved this masterpiece:

"On the motion of the city hall, the council adjourned."

Marie: "I must say I don't think much of your fiancé."

Betty: "I don't want you to."

"Grandmother," inquired the favorite daughter of the house, "I'm going with a young man who's—well—a bit on the parsimonious side. What shall I do, drop him?"

"By no means, child," replied the old lady. "Your grandfather proposed on a postcard."

On her way to bed the maid looked into her employer's room. "The master's locked up for the night, ma'am," she said.

Her employer looked puzzled.

"Really, Jane?" she said. "I didn't even hear him come in."

"He hasn't, ma'am," explained Jane. "The police station have just phoned."

BIRDS DELAY MIGRATION

CARROT RIVER, Sask. — Mild weather has the birds delaying their annual winter migration to the south. Mr. and Mrs. J. Schiller of Carrot River saw a robin in their yard and at Indian Head, Sask., Gary Chalmers spotted a woodpecker in his garden.

Today is yesterday's pupil.

Rainmakers In Australia Think They Have Pattern For Rain To Suit Farmers And Ranchers

SYDNEY.—Rainmaking scientists in Australia believe they have "very promising" prospects of evolving, within five years, an economical way of changing the natural distribution of rainfall over wide areas to suit farmers and ranchers. Experiments at present are focussed on the discovery that under certain conditions a cumulus cloud with a reasonably high water content can be induced to rain by spraying just below its base with salt or lime.

This discovery could easily lead to cheap artificial rain, says Dr. E. G. Bowen, a Welshman, chief of the radio-physics division of Australia's Commonwealth scientific and industrial research organization. Bowen was awarded \$27,000 this year by the British government for his key work in the wartime development of radar.

His research team has been studying rain formation processes and carrying out extensive rainmaking experiments for more than five years. In 1947, they produced the first recorded fall of man-made rain using the now "old-fashioned" method of seeding a super-cooled cloud with dry ice.

The scientists have estimated that by using this process rainfall in southeastern Australia could be increased by five to 10 per cent. a year. But, because it involved seed-

ing from twin-engined planes at cloud-top heights, it would not be an economical proposition.

Meanwhile, they set out to study the problem of rain formation in a fundamental way. They started probing rain clouds to find out what went on inside. Microwave radar proved the most valuable research tool for this purpose.

Early in their search for data on rain, the scientists confirmed by radar that downpours often start falling as snowflakes, melt after passing freezing level and form into raindrops. This was the cumulus nimbos cloud on which the dry ice method of inducing rain was so successful.

It was found, however, that many clouds which rain heavily do not even reach freezing level, making it impossible that ice crystals are involved.

Investigation showed that rain results when rising air currents suck into growing cumulus clouds sea salt nuclei or moist dust particles which are bigger than the water droplets already there.

Usually it is salt which causes the coalescence, explaining why coastal regions receive more rain than inland areas.

Seeding a low cumulus cloud with powdered salt from below is 100 times cheaper than seeding towering super-cooled clouds from above with dry ice, Bowen points out. Handling and storage of salt or lime is also much simpler.

Bowen stressed that exhaustive tests still have to be carried out, but it looks as though the team is on the verge of economical rainmaking.

A porcupine has some 30,000 quills that it loosens by threshing its tail.

EQUALS RECORD—The U.S. navy's high altitude research rocket streaks skyward at Las Cruces, New Mexico, to equal the world's record by reaching an altitude of more than 135 miles—Central Press Canadian.

Discover Star That Could Circle Earth In 131 Seconds

AMHERST, Mass.—Dr. Joseph Pearce, Director of the Dominion Astrophysical Observatory at Victoria, B.C., reported the discovery of a star travelling so fast it could circle the earth in 131 seconds.

The star was described by Pearce at an astronomers' meeting at Amherst College. He said the star travels at 190 miles a second—circling another star going 122 miles a second.

"They're going so fast," he said, "that at one point the stars are 12,000,000 miles apart and then 13½ days later they're 79,000,000 miles apart."

Eat Right—Live Right—Feel Right

On The Side : By E. V. Durling

What Happened to Splinter

Apparently mistaken identity in hospitals isn't confined to mixing up babies. In some hospitals unfortunate patients get the wrong operation! Recently a 10-year-old boy was sent to a hospital to have a steel splinter removed from his hand. He had his appendix removed. Seems he was mistaken for another 10-year-old lad who was there for an appendix operation.

The Final Deceit

There seems to be no limit to the originating of means of providing women with additional "oomph". Now even the so-called "inflated bra" has been topped. A French physician, one Dr. Germaine Gillet, has originated a brassiere that is worn under the skin! It is, therefore, entirely concealed. Couldn't even be detected at a nudist camp. For a woman to be able to wear this revolutionary figure builder, she must undergo a four-hour operation.

Pipe-Smoking by Experts

If a pipe of tobacco doesn't last at least 40 minutes, it has been improperly packed or the user is a nervous fellow who smokes too rapidly. In a pipe-smoking contest, A. H. Freemantle of Vancouver, B.C., kept one ounce of tobacco lighted for one hour and 57 minutes.

Cupid Conspires With Color

Not so long ago a color psychology expert said that if a young woman wore a pink dress, it might do much to inspire a man to propose matrimony. Therefore, I was interested in noting a headline over a fashion article reading: "Pink predominates in evening gowns."

The Good Influence

I saw a kid, who couldn't have been more than five, carrying an automatic toy pistol and saying to the passersby: "Stick 'em up." A bad situation. Can lead to no good in the child's future. Give your youngster a ball, bat and glove, or a football or something along athletic lines and it will greatly increase your chances of being proud of him in the years to come.

The Gentler Expression

Some people object to the use of the term "passed on" in connection with death. They say it indicates a fear to face the facts. That "died" should always be used. I cannot agree. It does not indicate a fear to face the facts, but is just a gentle way of expressing them.

From the Good Book

Young writers wishing to develop a simple and effective style should spend much time reading the Bible. The following are only a few of the effective phrases and sentences from the Bible: "Prisoners of love," "The wings of the morning," "Labor of love," "Can a leopard change his spots?" "Eat, drink and be merry," "Charity covers a multitude of sins," "A living dog is better than a dead lion."

The Woman Rules

Seventy per cent. of pipes for men are purchased by women. Therefore, manufacturers are making pipes in styles that will appeal to the feminine eye. Male tastes will be practically ignored. Such is a report noted. Truly a depressing situation. It indicates the extent to which pipe smokers are dominated by their wives. A man certainly must be completely subdued when he permits his wife to direct what shape pipe he should smoke.

As Robert Saw It

What is the most important characteristic one should look for in a wife? Robert Burns thought it was good nature. Said he, "The scale of good wife-ship I divided into ten parts. Good nature—four. Good sense—two. Wit (sense of humor)—one. Personal charm, viz., a sweet face, eloquent eyes, fine limbs and graceful carriage—one. As for the other qualities such as fortune, education, connections, family blood, etc., divided the remaining two degrees among them as you please."

Health Above All

It was Schopenhauer who said, "The greatest of follies is to sacrifice health for any other advantage." . . . Why is it you so seldom encounter a girl named Susanna? It is an attractive name. Has class. Shakespeare liked it. He gave it to his first child . . . In the Irish republic girls of 12 and boys of 14 can legally marry.

French Scientist Crosses Atlantic On Raft--Lived On Ocean Plants

BARBADOS.—Alain-Louis Bombard, 27-year-old French scientist who set out on a lone Atlantic crossing on a raft 64 days ago to prove man can survive on food provided by the ocean, has reached Barbados. His trip on the open Atlantic began when he left the Canary Islands Oct. 20 on the 3,000-mile voyage.

A British ship picked him up briefly recently about 590 miles off these West Indies islands. He went aboard to send wireless messages, then returned to the raft to complete his journey.

Bombard began his voyage from Nice, France, May 23, travelling in a 15-foot rubber dinghy equipped with two paddles, a six-foot mast and a sail.

Backbone of his diet was plankton—minute plants floating in the ocean. He caught them with a sieve trailing behind his tiny raft. He also ate raw fish and some birds.

Bombard's theory is that a human being can take up to one pint of sea water a day without ill effects. Fish and plankton contain fresh water and these sources of supply together should prevent death at sea by hunger and thirst, he contended.

"I believe that survival depends largely on will power," he said before he set out on the Atlantic crossing. "A man with great will power should be able to survive from two to three months; a man with average will power a month to six weeks."

Bombard's raft, named the Heretique, sailed through the eastern end of the Mediterranean to Tangier, then along the coast to northwest Africa to Las Palmas in the Canary Islands. He headed for the open Atlantic Oct. 20.

TRY AND STOP ME!

By BENNETT CREEP

A slick spieler in a backwoods carnival cleaned up selling "Atomic Bomb Protection" for a dollar. The "protection," it turned out, was merely a big plastic bag you were supposed to slip over your head. An enclosed circular announced, "If for any reason, complete atomic protection is not afforded, your dollar will be cheerfully refunded."

Barbara Anne, a college freshman, came home to her home town for Christmas, and hastened to tell her father, "Paw, there's something you might as well know right off. I ain't a good country girl any more." Paw clapped one hand to his forehead and cried out, "Twenty years your maw and I have made sacrifices so's you could go to a smart college, and what happens? You come home after three full months there — and you're still saying 'ain't'!"

GEMS OF THOUGHT

INDEPENDENCE

Let all your views in life be directed to a solid, however moderate, independence; without it no man can be happy, nor even honest.—Junius.

Go to New England, and visit the domestic firesides, if you would see the secret of American Independence.—Religion has made them what they are.—Thomas Mosquera.

The moral progression of a people can scarcely begin till they are independent.—James Martineau.

Reflecting God's government, man is self-governed. — Mary Baker Eddy.

There is often as much independence in not being led, as in not being driven.—Tryon Edwards.

The word independence is united to the ideas of dignity and virtue; the word dependence, to the ideas of inferiority and corruption.—Jeremy Bentham.

The skin of a full-grown giraffe is tough and solid, attaining as much as an inch of thickness.

World Happenings Briefly Told

Early in 1953 the Alberta Tuberculosis Association expects to hit the 1,000,000 mark in its free chest X-ray program. By mid-December 940,173 free chest X-rays had been given in Alberta.

Residents of Rajkot, India, didn't like the idea of a sales tax and they let the authorities know it. Fifty persons were injured when police broke up anti-tax demonstrations in which four police stations and a state bus were burned.

Eros, the god of love, has said a temporary goodbye to Piccadilly Circus, centre of London's entertainment world. His statue, a must for countless sightseers, has been carted off for a clean-up.

A British soldier, prisoner of the Chinese in Korea, said in a letter received in London that his captors will pass on only those letters that are typed or written in block capitals. He said they will not bother trying to read ordinary longhand.

Approximately 300 farms were provided with electric power since the end of October, according to a progress report issued through the bureau of publications by J. W. Tomlinson, general manager of the Saskatchewan Power Corp.

The Argentine ship Rio Belan has left Leghorn, Italy, with a 30-ton monolith of white Carrara marble that will be used for a memorial to Eva Peron, the late wife of Argentina's president.

Turkey breeder Maj. John Hibbert, of Kenilworth, England, put an unusual guard over his Christmas stock. Three pedigreed Jersey bulls were spaced at intervals around his farm. The major also had a wide selection of booby traps.

In the European championship final, the Swedes altered their defensive machinery to cope with the artificial bids of the Italians. A One No-Trump overall took the place of a normal take-out double.

The dubious merits of Italian bidding theory were exposed on this deal. In Room 1 their East-West pair scored 430 in Three No-Trumps, but the fun started at the other table when their South player had to protect after two passes with an opening bid of One Club. West bid One No-Trump, and in spite of the vulnerability North pre-empted with Three Diamonds, passed round to West. His double again asked for a take-out, but East made a penalty pass that netted 1100 and a gain of six match points for Sweden.

MIRACLE BOY—Last August, Gary Smith of Springfield, Vermont, was blind, deaf, paralyzed and not expected to live. He had trapped himself and his pet cat in an airtight icebox for seven hours and was given little chance of survival by physicians. But here is Gary with his mother, Mrs. Richard Smith. He enjoyed his Christmas even though crippled from the neck down. His speech is limited but his appetite is excellent and his mother, told by all attending doctors that it is a miracle he is alive, is confident he will recover all his faculties.—Central Press Canadian.

R.C.A.F. TAKES OVER AIRFIELD IN FRANCE—In an impressive ceremony, Rene Plevin, French minister of defence, presented the completed airfield at Grostenquin, 20 miles south of Metz, to Canada's defence minister Brooke Claxton. The airfield will be manned and operated by the R.C.A.F. It was accepted by Mr. Claxton on behalf of the North Atlantic Treaty Organization.—Central Press Canadian.

GROUND ALL GLOBEMASTERS—Following the crash of the U.S.A.F. Globemaster with the loss of 86 lives, authorities have grounded all planes of that type until a thorough check has been made. The Globemaster, as shown here, is the world's largest military transport in service and can carry 200 full-equipped troops in its massive hull.—Central Press Canadian.

HE WAS JUST A BIT TOO GOOD—One of the most sensational art frauds in decades came to light in Lubeck, Germany, recently when Ludwig Malskat, a Lubeck painter, strode into a police station and requested that he be tried for art forgery. He told officials he had painted and sold to German dealers and collectors more than 100 "genuine old masters," describing them as originals. The greatest shock came when Malskat "restored" of "Gothic masterpieces" dating back 700 years and supposedly discovered in Lubeck's St. Mary's church, were found to be original works by Malskat, himself. Here, Mr. Malskat grins roguishly over a painting he describes as "a genuine Renoir". But nobody is buying, or believing now. The young faker is too good at copying.—Central Press Canadian.

—Central Press Canadian Photos.
STALIN REWARDS—James Endicott of Toronto, former United Church minister and chairman of the Canadian Peace Congress, has been awarded a \$25,000 Peace Award by Russian dictator Joseph Stalin. Endicott's award was on the basis of his charges of germ warfare in Korea which he laid against U.N. forces.

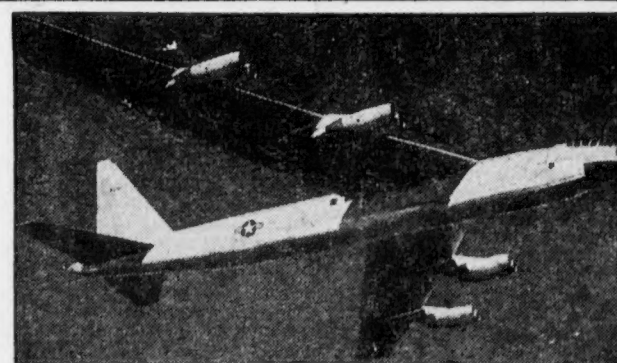

Another recipient of a Stalin prize was Paul Robeson, U.S. Negro singer and prominent Communist.

IT TASTES BETTER THAN EVER, NOW—Pizza pie has become Italy's most celebrated dish, almost overnight. It started when Gen. Eisenhower said he preferred New York-made pizza to the original made in Italy. But U.S. Admiral Carney and other visitors to Italy sprang to the defence of the Italian product, invited the general to go to Naples and eat his words along with the pizza. Here Mrs. Carney and Turkish general Kakai-Okan, both staunch supporters of the Italian handiwork, publicly show their preference in Naples. Pizza consists of flour, cheese, olive oil and spices.—Central Press Canadian.

ROWBOATS BECOME HOLLAND TAXIS—Faced by serious floods as the waters of the Maas River run rampant, residents of Urmond, Holland, are forced to use boats to travel in the streets. An unexpected winter thaw caused river to rise across the Dutch lowlands and then spread into France where the Seine River reached flood stage.—Central Press Canadian.

—Central Press Canadian.
READY FOR INTERNATIONAL ROLE—Successfully completing its preliminary flight test over Boeing Field, Washington, is the new giant eight-jet, swept-wing B52 Stratofortress, the new "global" or international bomber. It has been ordered into production by the United States Air Force and the initial fabrication of parts are now well under way. Two experimental models, it was announced, have been given trials.

CAUGHT NAPPING—Members of the Soviet Ukrainian delegation to the United Nations sink into slumber as they sit through the night-long debate on the demand by Russia's Andrei Gromyko, (right), for the condemnation of the United States for the alleged mass murder of war prisoners on Pongam Island. The weary Ukrainians didn't even come to life when their own chief, Prof. A. M. Baronovsky, spoke. Gromyko's demand was turned down in a pre-dawn vote. The man in front of the Ukrainian delegation, (left), is Gen. Carlos P. Romulo, Philippine delegate.

National Hockey League

Boston Is Heaviest Team, While Montreal Is Lightest — Heaviest Player Is Leo Reise, 210 Pounds

Boston Bruins ice the heaviest team in the National Hockey League. Average weight of the 17 players on the Boston roster is 178.3 pounds.

Lightest team of the six N.H.L. clubs is Montreal's colorful Canadiens. The Habitants have a 17-man roster that averages exactly 171 pounds per man.

Two teams in the National Hockey League, the Toronto Maple Leafs and the Chicago Black Hawks, are just about the same in the weight department. Average weight of a Maple Leaf performer this year is 177½ pounds, while the average Chicago player tips the scales at 177 even.

Harry Lumley, apple-cheeked net-minder of the Toronto Maple Leafs, is the heaviest goaltender in the National Hockey League and wees Gerry McNeil of Montreal Canadiens is the lightest. Lumley weighs in at 205 pounds, while McNeil is just 155.

Lightest player in the entire National Hockey League is Don (Bones) Raleigh at 150 pounds. Jim Conacher and Wally Hergesheimer teammates of Raleigh's on the New York Rangers are the second lightest along with McNeil of Canadiens, at 155 pounds.

Heaviest man in the National Hockey League is big Leo Reise, defenseman of the New York Rangers. Reise, who came to the Rangers from Detroit in an off-season trade for Reg Sinclair, tips the scales at 210 pounds. This gives Rangers both the heaviest and lightest players in the N.H.L. Reise is the heaviest while Raleigh is the lightweight.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Biggest Migration Of Caribou In Years From Tundra

CHURCHILL, Man.—Caribou herds migrating south from the tundra of the Northwest Territories this year were the greatest in nearly 25 years, veteran trapper Ed Kronlund of Great Island, 90 miles northwest of Churchill, reported here.

More than 15 strings of animals, travelling a few hundred yards apart and altogether forming a steadily-moving stream 1½ miles wide, moved past his cabin on Great Island in the Seal river. He said it took the animals 22 days of steady travelling to pass the point.

Mr. Kronlund said every cow appeared to have a calf. He walked among the usually-shy creatures and they appeared unafraid. Packs of wolves, some so bold they came right up to his cabin door, trailed the herds taking a heavy toll.

Weekly Tip

SKIRT IRONING

When ironing any skirt that has a tendency to stretch, start ironing at the hem and work up to the waist lengthwise. Do not iron across the board.

For Quick Cough Relief Mix This Syrup In Your Home

Thousands of Canadian housewives have turned to this well-known recipe for relieving coughs due to colds. It's easy to prepare, and gives you four times as much for your money.

Your usual drug counter can supply you with a 2½ ounce bottle of PINEX CONCENTRATE. Pour this into a 16 ounce bottle and fill up with granulated sugar syrup, or honey or maple syrup. To make the sugar syrup, simply mix 2 cups of sugar with one cup of water... no cooking needed, and it takes but a minute. Now you'll have an ample supply of fast acting, effective cough syrup for the whole family, so pleasant tasting the children will like it.

PINEX—a concentrated blend of proven ingredients—must help or your money refunded. Get a bottle today!

PINEX FOR COUGHS—EASY—ECONOMICAL

How Scott's Emulsion Helps CHILDREN GROW STRONG, HUSKY!

More than just a tonic

CHILDREN THRIVE on Scott's Emulsion. When they get run down, catch colds or get sick—see what a difference it makes when you give them Scott's Emulsion. It contains natural A & D Vitamins in natural oil—real "gold from the sea." Helps them maintain resistance. Helps them build strong bones, sound teeth, a husky body! Helps them grow into fine, sturdy, lively children you're proud of! Try Scott's and see!

SCOTT'S EMULSION IS RECOMMENDED BECAUSE

1. It contains natural A & D Vitamins in natural oil—plus added minerals. 2. Easy to take, economical. 3. Four times easier to digest than plain cod liver oil, because of exclusive process. 4. Helps children build strong bones, sound teeth, a sturdy frame.

Today—sure—get Scott's at your favourite store.

PRISCILLA'S POP—To Each His Own

—By Al Vermeer

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

Spot Ball

If you are to become a really outstanding basketball player you must be able to shoot accurately from practically any position on the court. And this, I might add, is something very few players, even in senior ranks, are able to do.

There are many players who can score baskets regularly from certain positions, say, for example, from the left side of the basket, but only a very few can score with any frequency from any spot within shooting distance.

The reason for this is simply because the average player has not been trained to shoot from all positions. He develops a certain favourite spot and at every opportunity he makes his shot from this position. However, skill at scoring from any part of the court can be developed if you use the right system, and here is a stunt that will do the trick for you!

The drill is called "Spot Ball" and it is conducted in the following way:

First, get 30 markers such as small flat pieces of cardboard or blotters. Then, place these markers in 30 different spots, 15 on the left side of the basket, and 15 on the right side. The markers should be evenly spaced over an area from sideline to sideline and from the basket to a line about 35 or 40 feet away from the basket. Then, once this is done, each player takes 2 shots from each marker. Every time he sinks a shot the player scores 1 point. The player who scores the most points is, of course, the winner. A check should be kept to see from which side and from what distance most of the shots were missed by each player, and with this knowledge at hand the weak spots can be eliminated through practice! Remember, this drill can be a really interesting contest as well as a very effective practice stunt so use it often and increase that all-important shooting skill!

Improve Your Skating

Skating is the most important fundamental of good hockey playing. A good skater can become an all-star hockey player and a poor skater can only become a fair hockey player.

at the most. Here are a few points to watch for in your skating. Go to work on them right away.

1. Lean slightly forward at the waist so that your shoulders are right over your knees.

2. Keep those feet close to the ice! If you lift them too high you are merely wasting energy and holding yourself back.

3. Try to explode with "drive" and energy each time you shove with that back foot.

Finally, skate smoothly and gracefully. Concentrate on stroking smoothly and easily no matter how hard you are digging.

Never Change a Winning Game!

Never change the style of play or the strategy that is winning games for you but always change your tactics when you are losing. This important point has often been neglected especially when there is a tight race for the league leadership. Quite often a team which has been winning games because of superior condition cases off the pressure of style play which has been giving them an advantage. This usually happens because the team feels that they are superior in all departments and does not have to "give" as much. When this happens the "conditioned" team usually suffers a rude shock and a defeat. So remember, don't change a winning game.

APPETIZING RECIPES

Garnished ham makes any meal a special one. As a fruit garnish use rosy pear bells or add a gay touch with green pepper and pimiento designs.

Decorating the Ham

Cook the ham in your favorite way the day before you need it and store in the refrigerator. Next day, remove the skin and score the fat by cutting into diagonal lines to make a pretty

diamond design. Spread the fat with a mixture of 2 tbsp. prepared mustard and ¼ tsp. ground cloves. Spoon honey or orange marmalade over the top. Stud each diamond with a whole clove, achieve a gay touch with green pepper and pimiento on the ham.

Helpful Hints

A piece of charcoal in a tool chest will absorb moisture and prevent rusting.

Do not wash bronze ornaments. Dust carefully and wipe with a soft cloth moistened with paraffin oil. Then polish with a chamol.

Hot fat will not spatter if a little flour or salt is sprinkled in it before using it for frying.

Colored silk fabrics require care when washing. Do not allow it to become very soiled before laundering. Add a little salt to cold water to prevent the color from running.

Smile Of The Week

The inquisitive lady passenger approached the old sea captain and said: "You know Captain, I've always wondered why they called a boat a 'she'."

Captain: "Ever try to steer one?"

Keeping farm records is the best way to analyze the business of your farm. It helps you pick out the weak points and strong points of your farm management system.

One year of a dog's life is about equal to seven years of a man's.

Quick Canadian Quiz

- On the shield in Canada's coat of arms are depicted the arms of what four nations?
- The Liberal Party has been in office in Ottawa since what year?
- Canadians consumed 380 pounds of steel per capita in 1939. Do we use more or less steel today?
- Name the six lakes in the Great Lakes chain.
- Are there more men or women eligible for universal pension at age 70?

Latest Lure Is Perfumed Earrings

ATLANTA.—Earrings with built in scents are the latest gimmicks on the market to help a gal snare a fellow with a minimum effort.

Modern design does away with the old fashioned ritual of dabbing a drop of perfume behind each ear.

Golden earrings stuffed with cotton saturated with perfume will be just as effective on the swain who whispers sweet nothings into the shell.

The potent scents are poured through a hole in the earring.

1952 Big Year For Saskatchewan Fish Hatcheries

PRINCE ALBERT.—In a year-end review, Saskatchewan Fisheries Director A. H. MacDonald said recently that over 22,000,000 fish fry, fingerlings, yearlings and eyed eggs were distributed in the province last summer.

These all came from the branch's Fort Qu'Appelle hatchery. Pickerel fry headed the list, with 14,200,000 distributed in southern Saskatchewan waters and the Meadow Lake district. Some 275,000 northern pike fry were distributed in the same general areas.

Over 9,000 eastern brook trout yearlings and 81,000 rainbow trout fingerlings were distributed in Cypress Hills streams and in east-central Saskatchewan.

In addition, the branch now has 8,000,000 whitefish eggs under incubation in the Fort Qu'Appelle hatchery. These will be distributed early next summer in saline lakes like Redberry, Basin and Lenore.

From a fisheries management standpoint, Mr. MacDonald said these lakes presented "something of a paradox". Although natural reproduction was extremely limited, white fish in the lakes grew rapidly and, on the average, attained greater size than whitefish in most other waters of the province.

Mr. MacDonald said that the hatchery and distribution program was being carried out to improve angling and commercial fisheries where inadequate spawning and natural reproduction conditions existed.

MEAT PIES

Turnabout's fair practice any time, particularly in food. For instance next time the menu calls for meat pie, put the meat in the crust instead of using it as filling.

In the same fashion home economists of the consumer section, Canadian agriculture department, recommend putting meat in the stuffing instead of stuffing the meat.

For instance: seasoned minced beef or hamburger may be mixed with sauteed onions to stuff vegetables such as onions, squash or cabbage.

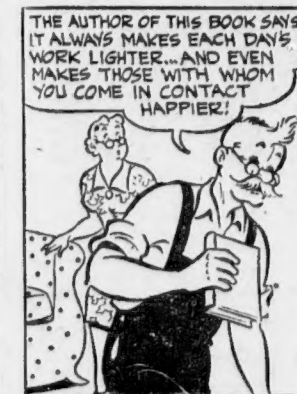

The meat "pastry" goes something like this: line a pie-plate with the ground beef mixture and then fill with seasoned vegetables such as drained canned tomatoes and corn.

The ground beef "crust" could also be put into muffin-tins to make individual pies.

The table supposedly used as King Arthur's round table is in a castle at Winchester England.

OUR COMPLETE SHORT STORY —

Dance To Remember

By DONALD GILCHRIST

"DON'T call me Barb'ra. It's Bar-bar-a. B-A-R"—she paused—"B-A-R"—she paused again—"A! Three syllables."

She tossed back her pigtail, rose up on one toe and did a slow, shaky pirouette. She was a thin, pale child with wide-set eyes and a large mouth. Her face was not pretty, but it was full of expression and character. She pouted suddenly as she heard her mother's voice calling her from the house.

"That's Mum. I'll have to go. 'Bar-bar-a! Where are you?' 'Coming! Coming! Oh—dear, no peace for the wicked!'"

The phrase came oddly from the child's lips. She had picked it up somewhere. She was always mimicking visitors who came to the house.

"Barbara? Oh, there you are!" A vivacious, dark-haired little woman was laying the table for lunch in the window of the front room where the pale December sunshine glistened on the knives and forks. "Barbara, dear, I wonder if you'd just run round to Smith's and get those sweets. Choose a quarter of anything you like for yourself, but get the rest in peppermints. It's what Daddy likes, as you know."

"Why does he?" asked Barbara curiously. "I think they're dull."

Her mother smiled. "You'd better ask him," she said. "Now, hurry, because it's nearly lunch-time. And do put a coat on, darling; it's cold enough for snow."

But it was not till lunch was over and her father sat down on the window-seat to smoke his pipe and watch the birds feeding out on the frozen lawn, that Barbara skipped up to him and said, "Daddy, tell me: why d'you always have peppermints? Mum told me to ask. Don't you like any other sorts of sweets? I think peppermints are dull."

Her father smiled and eased himself on the seat. His left leg stuck out in front of him, straight and rigid. It was artificial from the thigh downwards. He had been a 'peace-time' army casualty a few years after leaving school. He patted the seat beside him. "Come and sit down and I'll tell you. It's a most romantic story."

"Then I shan't believe it. All that Romance-stuff's out of date, Miss Preston says so."

"Does she?" He pulled a wry face, adding without malice: "Miss Preston may have good reason for thinking so. All the same, I repeat: my story's a romantic story. So now then . . . Once upon a time . . ."

"Oh . . ." Barbara groaned interrupting again; "then it's not a true story. It's not real."

"Of course it's real! What a little sceptic you are! Every story's got to start once . . . sometime." Very firmly and deliberately he repeated, "Once upon a time," paused for the interruption which did not come; raised his eyebrows in ironical surprise, and went on: "Once upon a time there was a small boy called . . . well, we'll call him Pat. He was a great little runner, and he could beat all the other boys at jumping, too. He spent a lot of time in the school gym, and got very good on the parallel bars and the vaulting-horse . . ."

Barbara yawned ostentatiously, swinging her legs. If the story was going to be all about the athletic prowess of little boys, she wasn't interested. She stretched out her feet, picked up a shred of tinsel paper between the toes of her shoes, and tossed it up into the air. But the very next sentence caught and held her attention.

"And then, one day," her father was saying, "his parents took him to see some ballet dancers; and the way the men, particularly, seemed to defy the laws of gravity filled him with envy and excitement. They seemed to him to be all elastic and steel springs, and bursting with the joy of living. And the music, too, was like fire in them. There was a flame-like quality in their response to its intoxicating rhythms. It seemed they had no need of the solid earth to support them. And young Pat went back home to his bed that night to dream of himself as a dancer shod with wings, who could span the stage at a single leap. And the next time he swung on the parallel bars and jumped the vaulting-horse in the school gym, he did it with a difference. He did it to music: imaginary music that beat inside his own head and imposed a sort of rough pattern on his movements."

He paused suddenly to look sideways at his audience on the seat, and saw that she was listening, rapt and still. Her legs no longer swung indifferently to and fro, but hung beneath her, limp with attention. She turned to look at him impatiently. "Go on," she said. "Why've you stopped? Did he become a dancer?"

"No." He shook his head. "Not properly. Not in the stage-trained sense. He was just an ordinary little boy at school doing ordinary lessons, playing games, working for exams. He didn't even know how to begin to learn how to dance. And, anyway, his parents would never have heard of it. They had much more sensible plans for him. But it's funny, everybody's a dancer at some time in his life. Not consciously, of course. Very seldom consciously. That was a little dance you did just now—clipping the tinsel paper between your feet and tossing it up."

"Oh, Daddy—silly! That wasn't!"

"It was. Of course it was. But young Pat saw everything he did as a dance. It was a dance to go swimming in the sea, to leap over hurdles, to field a cricket ball. He enjoyed everything that needed strength and balance. He was always 'tight-rope-walking' along the tops of gates, or crossing streams by slippery stepping-stones. He had been blessed with good limbs and fine muscles, and it seemed the most natural thing in the world to want to bring them into play to express his feelings. But he was bored by the ordinary dancing classes where they moved sedately about in fox-trots and two-steps. It was all too slow and mechanical—except the old-fashioned waltz. He liked that."

The speaker paused and shifted his position on the seat. He looked out through the window at the pear tree against the wall, where a wren, like a darting mouse, was hunting in the rough bark.

"Go on," said Barbara. "What happened next? Or is that the end?"

"No, it's not the end. I was just watching that wren. He's a great little dancer."

"Oh, don't bother about wrens," cried Barbara impatiently. "What happened to Pat?"

"Well . . ." he sighed. "The years passed, you know. He grew up. He grew into a man. But we can skip all that. We'll come upon him suddenly and surprise him. He's standing on a pavement, looking up at a big bill posted on the blank wall of a building. He's in hospital blue, and he knows very well he shouldn't be there at all. He shouldn't be out, because he's been very ill, and there's snow on the ground. But it seems to him years since he saw any good dancing, and here at the theatre for

a week is one of the finest ballet companies in the country. The titles in the repertoire are pure magic to him: Coppelia, Swan Lake, Aurora's Wedding, Carnaval . . . all the old favourites. Snatches of the music run sparkling and lilting through his head like wine. His only fear is that all the seats will have been sold and he won't be able to get in. So he treks off to the theatre, slowly, and painfully, to find out.

"And his fears are only too well-founded. Not a seat is left in the house. There are sold-out notices everywhere and there's standing-room only for those who queue. Of course, they tell him there's a possibility of an odd ticket being returned, if he cares to call in again . . ."

"Well, he's standing there irresolute and miserable, wondering what-
ever to do next, when into the booking-hall they come, five of them, as gay and mischievous-looking as a bunch of children.

"'Locked out! Locked out!' they are wailing hilariously. 'Locked out and nowhere to go!'"

"One of the men goes up to the window of the box-office to explain.

'We can't get in at the stage door,' he says. 'It's locked or jammed. So we've come round here. D'you think we could go and sit in the auditorium?'"

"'Like we did once before,' laughs a dark-haired girl very gaily. 'You remember! We sat in the stalls in the dark and ate fattening sweets!'"

"Who's got the sweets, by the way?" the young man demanded. 'I know I gave somebody the money to get them.' He sounds just like a big brother, lordling it over a bevy of his sisters.

"Here they are!" cried the dark-haired girl, bringing out a white paper bag from under coat and holding it triumphantly aloft for everybody to see. 'Anybody like one now?'"

"She stands on tip-toe, pivoting slowly round, — and then away she darts from one to the other, just as if she's doing a gay, impromptu little dance.

"In the middle of it she suddenly seems to freeze. There's a man standing just inside the glass doors, looking at her. He's looking at her as if hypnotized, as if he worships the very ground she treads on. She

notices with a sharp stab of tenderness and pity that he has only one leg, and that his shoulders are hunched with the upward thrust of his crutches. And it's as if a sudden blessed impulse seizes hold of her, telling her what to do. She has only paused for the briefest of seconds. Just as if he's one of them—as if it's all part of the dance — she runs across to where he is standing and holds out her bag. Her smile has something in it that her audiences have never seen: something as gentle as a kiss. 'Do, please, have one,' she says shyly. 'Do you like them? They're peppermints.'"

There was a moment's silence on the seat in the window. A few flakes of snow had started floating down out of the grey sky.

And then the little girl burst out: "Oh, dear! Is that the end?"

"Yes."

"But it's a sad story! Daddy, it's sad! It's not romantic at all."

"Isn't it?" He looked away across the garden, his eyes creased and twinkling with happiness. "You ask your mother. It was her peppermint!"

Delicious INGERSOLL Cheese

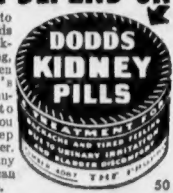

...lifts your good apple pie right out of this world!

Surprising what Ingersoll Baby Roll will do even for the best apple pie — like yours! This scrumptious blend of mild and well-aged cheddar is wonderful for hearty sandwiches and hot cheese dishes, too. Melts smoothly and evenly.

And for a delicious budget-wise party snack, just surround Ingersoll Baby Roll with crackers, let folks dig in! Remember — ask for INGERSOLL BABY ROLL Cheese next time you shop. It's smart to serve on so many occasions!

YOU CAN DEPEND ON

When kidneys fail to remove excess acids and wastes, backache, tired feeling, disturbed rest often follow. DODD'S Kidney Pills stimulate kidneys to normal duty. You feel better—sleep better, work better. Get Dodd's at any drug store. You can depend on Dodd's.

3 Dessert Treats from One Basic Dough!

It's easy with wonderful active dry yeast!

Say goodbye to humdrum meals! Turn one tender-rich sweet dough into these three yummy dessert treats! It takes no time at all — with the amazing Fleischmann's Fast Rising Dry Yeast! This lively, zesty yeast acts fast . . . gives perfect risings every time. If you bake at home, buy several packages now.

BASIC FRUIT DOUGH

Prepare
1½ cups bleached or sulfite raisins, washed and dried
½ cup finely-cut candied citron
½ cup broken walnuts or pecans
Soak
2 cups milk
Remove from heat and cool to lukewarm. In the meantime, measure into a small bowl ½ cup lukewarm water
2 teaspoons granulated sugar
and stir until sugar is dissolved.
Sprinkle with contents of
2 envelopes Fleischmann's Fast Rising Dry Yeast
Let stand 10 minutes, THEN stir well.
Sift together three times
4 cups once-sifted bread flour
1 tablespoon salt
4 teaspoons ground cinnamon
½ teaspoon grated nutmeg
¼ teaspoon ground cloves
¼ teaspoon ground mace
Cream in a large bowl
½ cup butter or margarine
½ cup lightly-packed brown sugar
Gradually beat in
3 well-beaten eggs
Stir in lukewarm milk, dissolved yeast and sifted dry ingredients; beat until smooth and elastic. Mix in prepared fruits and nuts.
Work in
3½ cups (about) once-sifted bread flour
Turn out on lightly-floured board and knead dough lightly until smooth and elastic. Place in a greased bowl and grease top of dough. Cover and set dough in a warm place, free from draught, and let rise until doubled in bulk. Turn out dough on lightly-floured board and knead lightly until smooth. Divide into 3 equal portions and finish as follows:

1. Chop Suey Loaf

Knead ¼ cup well-drained cut-up maraschino cherries into one portion of the dough. Shape into a loaf and fit into a greased bread pan about 4½ by 8½ inches. Grease top. Cover and let rise until doubled in bulk. Bake in a moderate oven, 350°, about 40 minutes. Brush top of hot loaf with soft butter or margarine.

2. Butterscotch Fruit Buns

Cream together ½ cup butter or margarine, ½ teaspoon grated orange rind, ¼ cup corn syrup and 1 cup lightly-packed brown sugar. Spread about a quarter of this mixture in a greased 9-inch square cake pan; sprinkle with ½ cup pecan halves. Roll out one portion of dough on lightly-floured board into a 9-inch square. Spread

almost to the edges with remaining brown sugar mixture; roll up loosely, jelly-roll fashion, and cut into 9 slices. Place each piece, a cut side up, in prepared pan. Cover and let rise until doubled in bulk. Bake in a moderate oven, 350°, about 30 minutes. Stand pan of buns on a cake cooler for 5 minutes before turning out.

3. Frosted Fruit Buns

Cut one portion of dough into 18 equal-sized pieces. Shape each piece into a smooth round ball. Place, well apart, on a greased cookie sheet. Grease tops. Cover and let rise until doubled in bulk. Bake in a moderate oven, 350°, about 15 minutes. Immediately after baking, spread buns with a frosting made by combining 1 cup once-sifted icing sugar, 4 teaspoons milk and a few drops almond extract.

ITCH IN A JIFFY

Very first use of soothing, cooling, liquid D.D.D. Prescription positively relieves raw red itch—caused by eczema, rashes, scalp irritation, chafing—other itch troubles. Greaseless, stainless. 45¢ trial bottle must satisfy or money back. Ask your druggist for D.D.D. PRESCRIPTION.

LEVEL LAND

A hockey game took place at the Level Land rink with Level Land winning 7-4 over the Berreths.

Mr. Bill Oliver of Peace River arrived in this district last week and visited for a few days at the home of Mr. and Mrs. Jacob Gimbel. Mrs. Oliver was visiting her parents in this district for a month and joined her husband on their way back to Peace River.

The Level Land hockey team motored to Calgary Feb. 7th and played the Bow Valley team in Buffalo Stadium. The game ended 4-0 in favor of Level Land.

Pastor Fallet of Calgary was the guest speaker at the S.D.A. Church Feb. 7. His topic was "Temperance." He has just returned from being a delegate of the American Temperance Society at Washington, D.C. He urged everyone to join the battle to save the youth of America.

Mrs. Dan Sayler was visiting at Olds and Lacombe over the weekend.

Mr. and Mrs. Alvin Huether and family of Leduc were visiting with the S.D.A. Church and his parents, Mr. and Mrs. R. Huether.

Mr. and Mrs. Courtney Gimbel of Peace River were visiting with their parents, Mr. and Mrs. Jake Gimbel for a few days, and left Feb. 9th for their home.

Mr. and Mrs. Arno Kutzner and Ed Comm of Edmonton spent the weekend visiting at the home of Mr. and Mrs. Emil Berreth.

The S.D.A. church were showing films on Sunday night, Feb. 1st. The films were gotten from the Foothills Book Store and were enjoyed very much.

Mr. and Mrs. Rudy Dederer and family of Hanna were visiting with the S.D.A. Church and friends on Feb. 7th.

Adeline Berreth, after visiting with her parents for a month, left Jan. 27th by bus for Portland, Ore. to join the coming Clinaid nursing group which started on Feb. 1st. Adeline spent all of last year attending the Walla Walla College and also worked for three months in Portland Sanatorium. This last fall she went back to Walla Walla College obtaining more credits towards her Bachelor degree in nursing.

1953 Chevrolet

better than ever

Advance-Design Trucks

For 1953, Chevrolet trucks offer new performance, new stamina, new safety and economy — and every model is even stronger, sturdier, more durable than those of past years!

The advanced Loadmaster, Torquemaster and Workmaster engines in all models deliver more power than has ever before been available in Chevrolet trucks. This big, husky, valve-in-head engine with a new high-compression ratio brings you finer performance, faster acceleration, greater hill-climbing ability and substantially greater gasoline mileage.

But that's only the beginning. You get all the proved features and advantages that have made Chevro-

let trucks world-famous for their ability to handle the roughest jobs day after day at the lowest over-all cost to you!

Yet, even with all these greater advantages, 1953 Chevrolet trucks give you more for your money than any other trucks of comparable capacity and specifications. Drop in at our showroom and talk over your trucking needs. Let us show you how much more you get for your money with 1953 Chevrolet trucks.

A GENERAL MOTORS VALUE

**4
powerful
reasons
why they
are
better
than ever**

more engine power!

You get all the power you need with outstanding valve-in-head economy from Chevrolet's great new engines for 1953 — the 108 h.p. Loadmaster, the 125 h.p. Torquemaster and the big 130 h.p. Workmaster — all with new high compression ratios.

more staying power!

Now, heavier, stronger, more durable frames increase rigidity, add to ruggedness and stamina of all 1953 Chevrolet trucks. Long famous for their ability to take the roughest jobs day after day, Chevrolet trucks are now brawnier and sturdier than ever.

more braking power!

In 1953, all Chevrolet trucks up to 1400 Series models are equipped both front and rear with big, powerful "Torque-Action" brakes which make full use of truck momentum for greater stopping power. Series 1100, 1500, 1700 and 1800 heavy-duty trucks use extra-large "Torque-Action" brakes in front, "Twin-Action" type in rear. Both assure quick, smooth, safe stops — provide greater stopping power, greater durability than before.

more economy!

The new and greater stamina of 1953 Chevrolet trucks, plus extra gasoline economy with improved valve-in-head engines, reduces hauling costs per ton-mile, brings you greater over-all economy throughout the long life of your trucks.
